

The latest security information on Intel® products.

## Intel® Unite Client for Windows\* Advisory

Intel ID:	INTEL-SA-00350
Advisory Category:	Software
Impact of vulnerability:	Information Disclosure
Severity rating:	MEDIUM
Original release:	11/10/2020
Last revised:	11/10/2020

## Summary:

A potential security vulnerability in the Intel® Unite Client for Windows\* may allow information disclosure. Intel is releasing software updates to mitigate this potential vulnerability.

## Vulnerability Details

CVEID: CVE-2020-0575

Description: Improper buffer restrictions in the Intel(R) Unite Client for Windows\* before version 4.2.13064 may allow an authenticated user to potentially enable information disclosure via local access.

CVSS Base Score: 4.4 Medium

CVSS Vector: CVSS:3.1/AV:L/AC:H/PR:L/UI:R/S:U/C:H/I:N/A:N

## Affected Products:

Intel® Unite Client for Windows\* before version 4.2.13064.

Updates are available for download at this location:

<https://downloadcenter.intel.com/product/89294/Intel-Unite-app>

## Recommendations:

Intel recommends updating Intel® Unite Client for Windows\* to version 4.2.13064 or later.

## Acknowledgements:

This issue was found internally by Intel employees. Intel we would like to thank Artem Shiskkin.

Intel, and nearly the entire technology industry, follows a disclosure practice called Coordinated Disclosure, under which a cybersecurity vulnerability is generally publicly disclosed only after mitigations are available.

## Revision History

Revision	Date	Description
1.0	11/10/2020	Initial Release

## Legal Notices and Disclaimers

Intel provides these materials as-is, with no express or implied warranties.

All products, dates, and figures specified are preliminary based on current expectations, and are subject to change without notice.

Intel, processors, chipsets, and desktop boards may contain design defects or errors known as errata, which may cause the product to deviate from published specifications. Current characterized errata are available on request.

Intel technologies' features are enabled by default on Intel-branded systems and may require enabled hardware, software or service activation. Performance varies depending on system configuration. No product or component can be absolutely secure. Check with your system manufacturer or retailer or learn more at <https://intel.com>

---

Some results have been estimated or simulated using internal Intel analysis or architecture simulation or modeling, and provided to you for informational purposes. Any differences in your system hardware, software or configuration may affect your actual performance.

## Report a Vulnerability

If you have information about a security issue or vulnerability with an **Intel branded product or technology**, please send an e-mail to [secure@intel.com](mailto:secure@intel.com). Encrypt sensitive information using our PGP public key.

Please provide as much information as possible, including:

- The products and versions affected
- Detailed description of the vulnerability
- Information on known exploits

A member of the Intel Product Security Team will review your e-mail and contact you to collaborate on resolving the issue. For more information on how Intel works to resolve security issues, see:

- Vulnerability handling guidelines

For issues related to Intel's external web presence (Intel.com and related subdomains), please contact Intel's External Security Research team.
